

PITCH DECK · 12 SPLITS

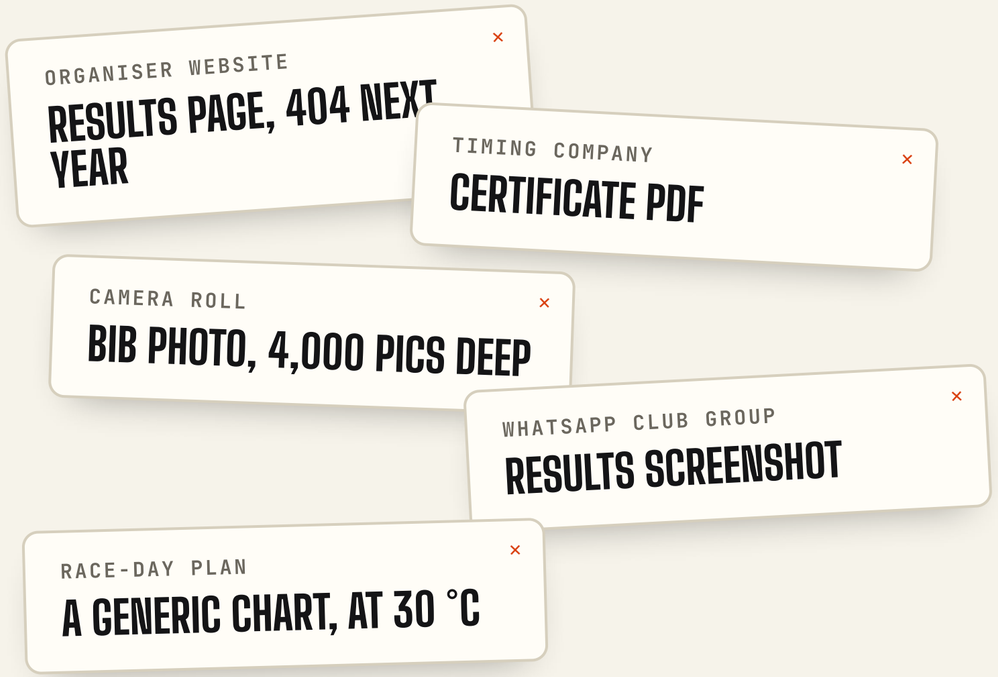

THE AI RACE COMPANION FOR INDIA'S 2.5M RUNNERS.

Snap a finisher certificate and the race is logged. Get a race-day plan built for the course, the heat and your own history. Then a debrief, and a poster worth sharing.

GEMINI · NANO BANANA · GEMINI LIVE · GOOGLE CLOUD

THE PROBLEM

INDIA RACES MORE THAN EVER. RUNNERS REMEMBER LESS.

1 SCATTERED HISTORY

Results live with whoever timed the race. Nobody, the runner included, holds the complete record.

2 GUESSWORK RACE DAYS

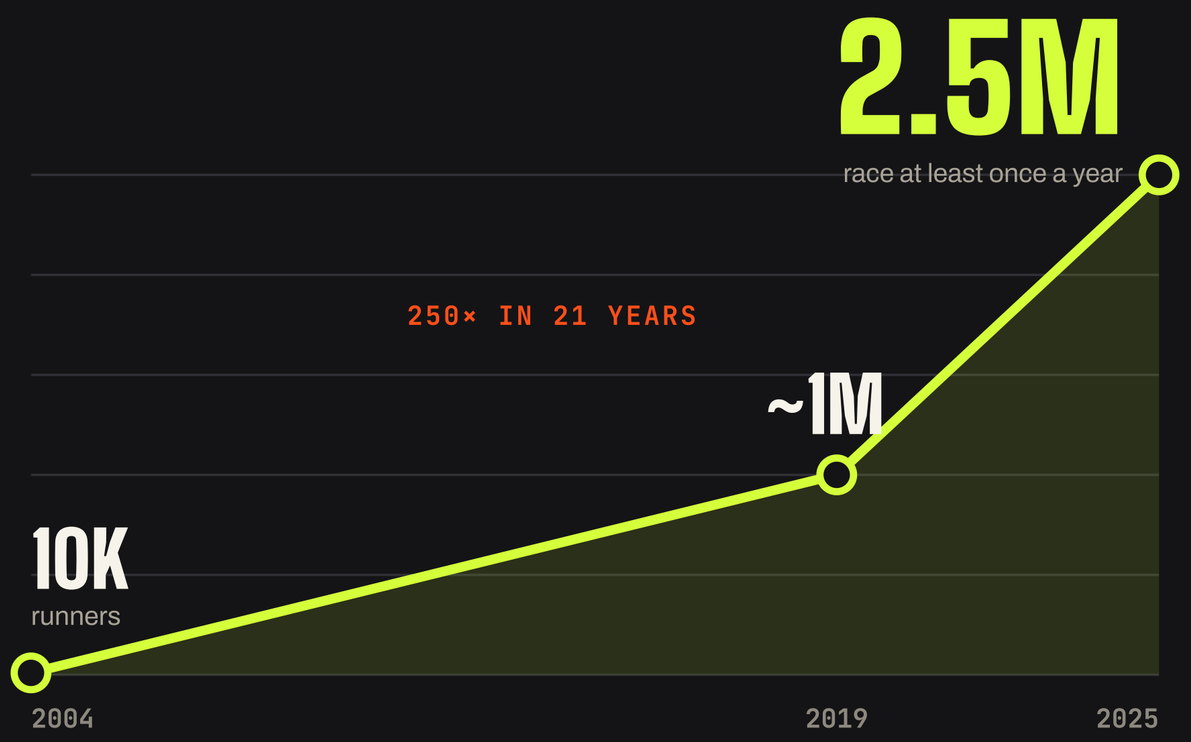

Pace charts ignore heat, humidity, hills and your own past splits. Runners find the fade at km 30 instead of planning for it.

3 NO DEBRIEF

Strava and watches log every run but never *understand* a race, and many runners don't own a watch at all.

WHY NOW

A RUNNING BOOM WITH NO MEMORY LAYER.

65K+
Tata Mumbai Marathon runners in 2025. It started with 19,000.

1,000+
organised road races across India every year, many now in Tier-2 towns

$4.8B
Indian running-gear market by 2033, double 2024's $2.4B (IMARC)

+59%
year-on-year growth in running-club activity on Strava in India

Sources: Procam International via Forbes India and Local Samosa (2.5M participants a year); ThePrint (small-town marathons); Social Samosa; IMARC via Local Samosa. Organiser and industry figures are indicative, not audited.

WHO IT'S FOR

THREE START CORRALS.

CORRAL A · PRIMARY — B2C

THE RACE RUNNER

A

25–45, urban professional, 3–10 races a year from 5K to ultra. Phone-first, in a run club, often without a GPS watch.

WANTS

A PB, a strong finish in the heat, and a journey worth showing.

PAYS FOR

Unlimited AI imports, a plan and debrief for every race, HD posters.

CORRAL B — B2B-SMALL

CLUBS & COACHES

B

20–200 runners each, coordinated over WhatsApp and spreadsheets.

WANTS

Every member's race history, plan and debrief in one roster.

PAYS FOR

A monthly club seat.

CORRAL C — B2B

ORGANISERS & TIMERS

C

Race organisers and timing companies whose results die in a PDF.

WANTS

Results that get shared, and runners who come back next year.

PAYS FOR

A branded poster and runner page for every finisher.

THE SOLUTION

ONE LOOP. FIVE CHECKPOINTS.

01

CAPTURE

Photograph a certificate, bib or results screenshot. The race is logged.

GEMINI · VISION

02

PLAN

Per-km pacing for this course, this forecast and your history.

GEMINI · TOOLS + GROUNDING

03

RACE

A printed pace band, or a voice pacer in your ear.

GEMINI LIVE

04

DEBRIEF

Plan against actual: where you faded, why, and what to change.

GEMINI · REASONING

05

SHARE

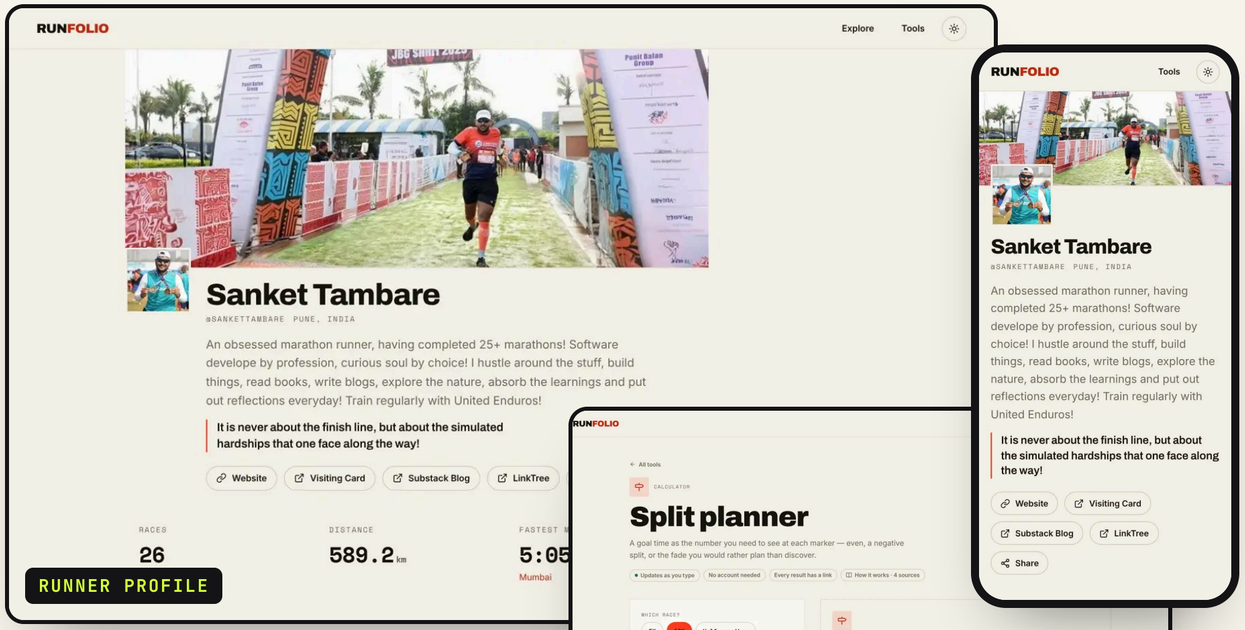

A finisher poster and a portfolio page, which bring the next runner in.

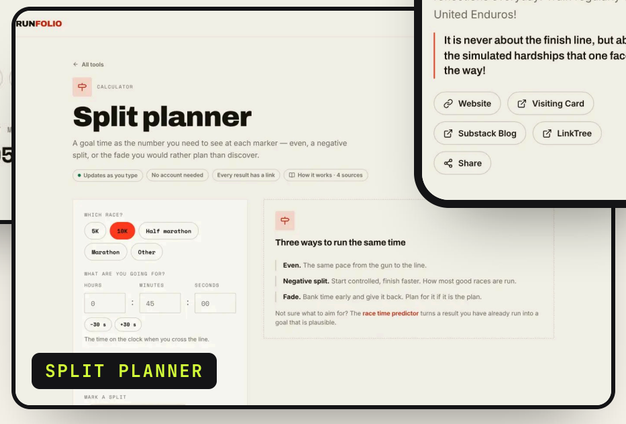

NANO BANANA

THE RULE Every number comes from a deterministic, cited formula that's already live on RunFolio. Gemini explains it and personalises it. It never invents a pace.

CURRENT PROTOTYPE · RUNFOLIO.IN

ALREADY ON THE COURSE.

1

Shareable race portfolio. Photos first, PBs and stats computed for you, grid, ledger and stats views, all on one link.

6

Free tools, no login. Pace, splits, race predictor, training plans and TMM/Khadakwasla blocks, each with its method and sources cited.

OG

Share cards generated per race, so links unfurl with your name and time.

523

Unit tests, row-level security on every table, and pages that work with JavaScript off.

AI FEATURE 01 · CAPTURE

SNAP THE CERTIFICATE. IT'S LOGGED.

GEMINI FLASH · VISION ·

NEW RACE · CONFIRM		JSON SCHEMA
EVENT	City Half Marathon	0.98
DATE	2026-12-14	0.97
DISTANCE	21.0975 km	0.99
NET TIME	1:57:42	0.99
BIB	4127	0.95
SPLITS	10K 55:31	0.71 ⚑

ANY LAYOUT, ANY LANGUAGE

CONFIDENCE FOR EVERY FIELD; LOW SCORES FLAGGED

THE RUNNER CONFIRMS; NOTHING AUTO-PUBLISHES

BULK: 30 PHOTOS → VERTEX BATCH

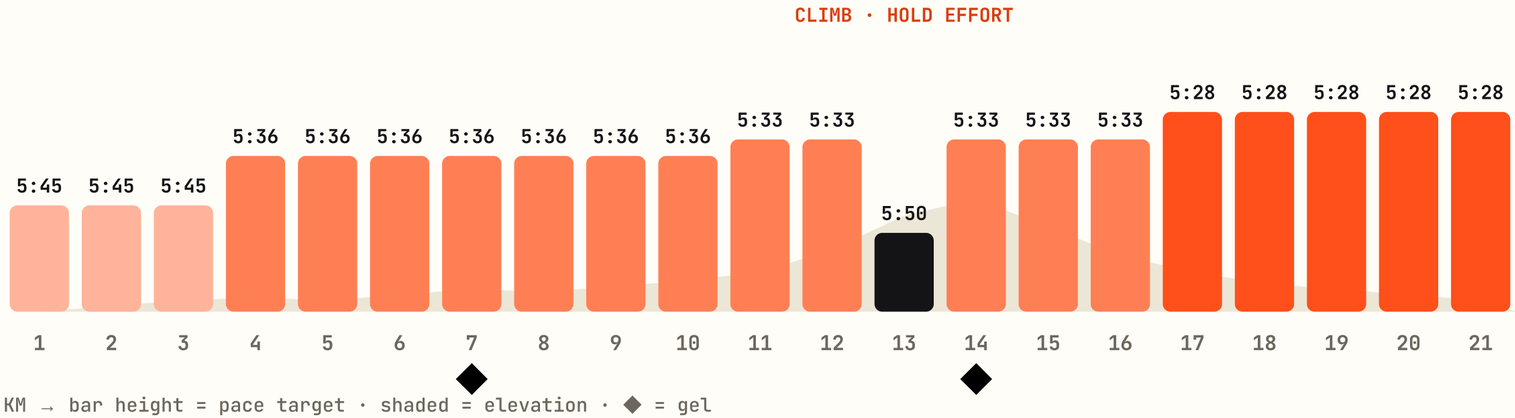

NO WATCH NEEDED

AI FEATURE 02 · PLAN

A PLAN FOR THIS RACE, NOT A RACE.

PACE BAND · HALF MARATHON · EXAMPLE — GOAL 1:55 · HEAT-ADJUSTED

START 06:00 | 27 °C → 31 °C | 82% HUMIDITY | +64 M CLIMB, KM 12–14 | GEL · KM 7 · 14

KM → bar height = pace target · shaded = elevation · ◆ = gel

≈1:57:54 finish

Honest about the heat: about three minutes slower than the cool, flat-course maths, and on purpose.

HOW IT'S BUILT

Gemini calls RunFolio's own cited calculators for every number, grounds on course elevation and the forecast, and reads your last five races' splits.

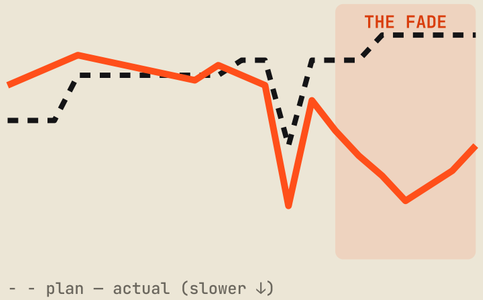

THEN IT EXPLAINS

"You faded 6% after km 15 in your last two halves. Bank nothing early. The climb is where we hold back."

AI FEATURES 03–06 · AFTER THE LINE

DEBRIEF. COACH. SHARE. TALK.

03 · DEBRIEF GEMINI

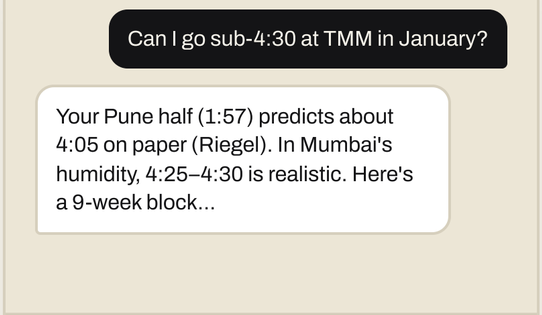

PLAN VS ACTUAL

Finds where it went wrong and why: heat, the hill, or a start that was too fast.

BUILDATHON SCOPE

04 · COACH GEMINI

AI COACH

Knows your whole race history, with context caching to keep it cheap. It builds the next block and gives an injury caveat every time.

NEXT

05 · POSTER NANO BANANA

FINISHER POSTERS

Your race photo plus your verified result, made into a poster. This is the moment people share, and what organisers pay for.

BUILDATHON SCOPE

06 · VOICE GEMINI LIVE

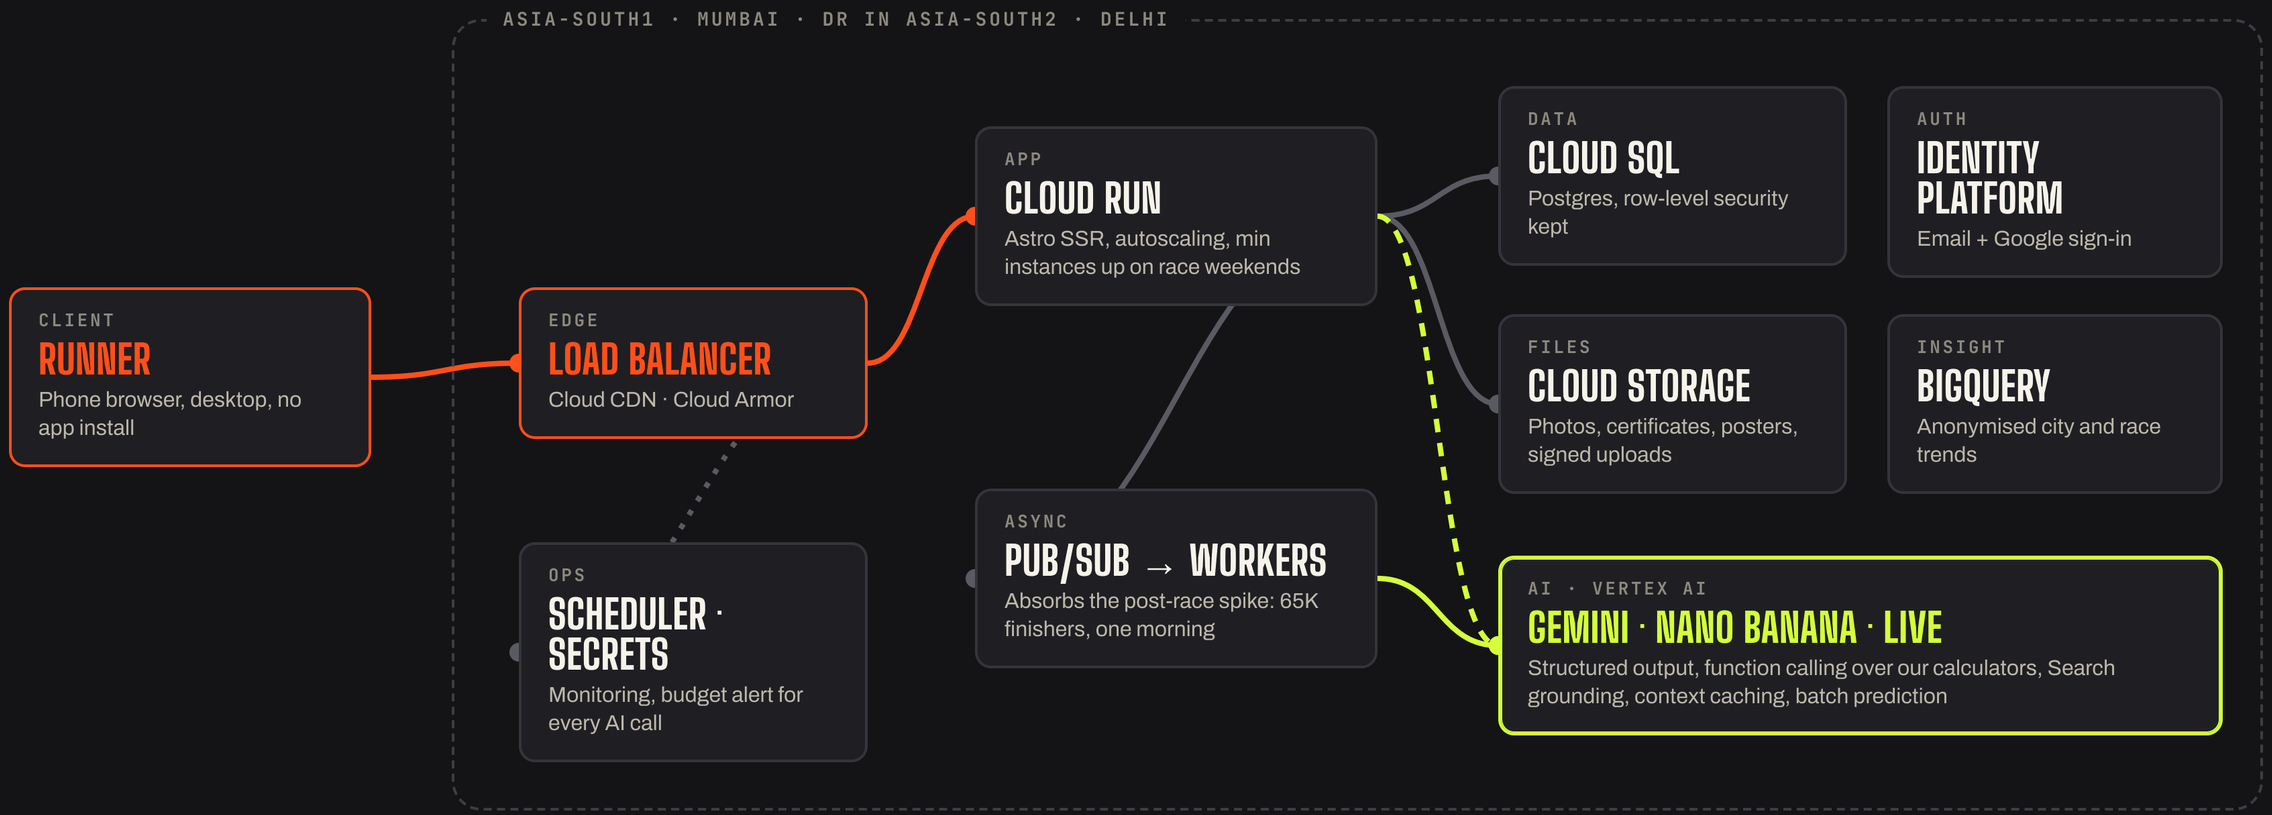

RACE-DAY VOICE

A hands-free pacer on race morning and a spoken debrief afterwards. A year-in-review reel scored with Lyria.

ROADMAP
